

Product Specification Report

Rev. 1.0

Releases heat and works immediately on contact with frozen surfaces. Prevents re-freezing.

SUPATHAW

Heats and thaws frozen surfaces

FEATURES:

Fast acting	Works very fast, as soon as it comes into contact with frozen surfaces.
Prevents re-freezing	Goes on working down to temperatures as low as -56°C to prevent re-freezing.
Safe	Non-toxic, non-tainting, non-corrosive and safe on the skin. It is also safe on all surfaces such as roads, pavements, walkways, wood, vinyl and carpet.
Anti-slip	SUPATHAW contains a special, inert anti-slip additive which minimises the slip hazard immediately and throughout the thawing process.
Economical	The product is made up of fine particles which ensure maximum contact with the frozen surface. This results in rapid heat release and optimum thawing action.
Easy to use	Easy to apply with special hand-held scoops.

APPLICATIONS:

Can be used on all frozen surfaces, also safe on all surfaces such as roads, pavements, walkways, wood, vinyl and carpet. It contains a special, inert anti-slip additive which minimises the slip hazard immediately and throughout the thawing process.

SPECIFICATIONS:

Form Powder
Colour White
Odour Nondescript
Density at 20°C..... 0,9 g/cm³
Solubility in water..... Fully miscible
pH (5 g/l) at 20°C..... 7

INSTRUCTIONS FOR USE:

Spread **SUPATHAW** evenly over frozen surfaces and allow to thaw. (Easy to follow instructions are also on every sack.) Supplied in multiples of 15 kilo sacks with special hand-held scoops to help spread the product evenly. **SUPATHAW** is also used as a preventative against frost, ice and snow formation by applying the product immediately at the onset of extremely cold conditions.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
